## Welcome to The Coven hair salon

*(Sister Salon to Belle Hair Boutique)*

The Coven is an inclusive space dedicated primarily to neuro diverse children and young adults, supporting the individual and their parents in what can sometimes be a daunting experience.

Our space is also open to anybody, regardless of age and gender, who finds being in the usual busier salon environment uncomfortable.

We also specialise in vivid colouring and alternative hairstyles, as well as providing a safe space for transitioning individuals and those in the LGBTQ community (as does Belle Hair Boutique)

### Sensory/Private Appointments

We have set the salon up to be a private, calmer, quieter environment, with options for low lighting and low/no music. The salon will be exclusively yours during your appointment, unless stated otherwise, for the duration of your time slot. There is no judgement and rushing.

We give the option to come and meet us prior to the hair cut with a 30 minute appointment to discuss your needs, and how we can best set up the salon to suit. We can provide social stories in preparation for visiting.

For younger clients the sessions are about play and getting to know the environment, to positively build towards hair cutting.

Please remember - it is OK to communicate your needs.

### Vivid & Alternative Hair

On these salon days we welcome you to come to us with your hair requests however wild or dark they are! We love to play with colour and spend time with like minded individuals.

### Appointments for transitioning individuals

If you require a private appointment to enable you to speak more freely we can certainly do this for you. We have absolutely no judgement and would love to help you on your journey.

### Why are our prices higher for private appointments?

To enable us to create this bespoke environment and keep it exclusively for one client at a time during our sensory sessions, we need to charge more to make sure our running costs are being covered.
